

TowPLow

The North American
Leader in innovative
snow & Ice control
equipment.

Standard Features

1. **Clears up to 26'** in a single pass with front plow.
2. **Plow at Normal Speeds** 50-60Kmh (34-37 mph).
3. **TowPLow Trailer Design** swings out behind truck to increase the clearing path to two lanes.
4. **Simple, In-Cab Hydraulically Controlled Steering** smoothly deploys plow into adjacent lane. Single hydraulic function adjusts TowPLow position. Another single function lever raises and lowers moldboards.
5. **Multiple Tongue Positions** for matching front plow and optimal material placement.

Model	Clearing Path	Length	Cutting Edge Length	Approx. Weight
8 yd3 Hopper	14'	34'	26'	17200 lbs (empty)
1025 gal. Brine Tank	14'	34'	26'	17700 lbs (full)

Options

- Lefthand discharge.
- Cutting edge options.
- 8 Yard salt/sand hopper.
- Prewet System.
- Dual 1025 gal. polymer brine tank for Direct Liquid Application (DLA).
- Galvanized or painted chassis.
- Rear signboard, traffic arm & conspicuity options.
- Adjustable casting moldboard
