

Underbody Scraper

The North American
Leader in innovative
snow & Ice control
equipment.

Standard Features

1. **Heavy Duty Moldboard** can power through road ice and also perform light grading.
2. **Hydraulically Reversing Frame** allows ice to be discharged left or right.
3. **Robust 1" Mounting Plate** allows the moldboard to swivel 45 degrees left and right.
4. **Hydraulic Cylinders** raise and lower the moldboard and springs allow responsive tripping action.

Options

- Manual Reversing model
- Carbide or Steel grader blades

Model	Moldboard Length	Moldboard Height	Weight
UB1020	10'	20"	2830 lbs
UB1120	11'	20"	2910 lbs
UB1220	12'	20"	2990 lbs
